Africa Work report from Warren Scholtz

Dear Brethren

I pray all is well with you and the Lords work your side of the world .I apologize for the long delay in reporting back , many of you are aware of my terrible accident last year with a rifle exploding in my hand , I lost my thumb and most of my palm, plus most of my hand blown into shreds . I also realize that many of you may not be on Ivy's updates and are not aware of what has happened , if you would like the detailed updates on my surgeries and condition please just pop a mail to Ivy on ivyscholtz@gmail.com. Today is the first day I have been able to access my computer and all my contacts , I apologize in advance for any grammar and spacing issues in my typing, since I am learning to type with one finger .I am currently still in my hospital bed I was in surgery Monday and am going back tomorrow. The good news is the Dr were able to save my hand and anticipate with many surgeries and rehabilitation I should have good use of the hand and 3-4 fingers .The bad news is this accident has plunged me into massive medical costs and debt .Thank you so much for brethren that have helped me financially so far , if you would like an update on where I am on this I will gladly give you an update privately .It has been a tough journey for me and I have a way to go , I am digging deep and cant help but feel a guilt for putting my family through this anxiety and financial stress .I know the Lord is with me and have comfort in all you brethren and prayer .I will complete this journey too with what I call the PP method Positivity and PRAYER. Please keep praying for me.

Ivy , the good wife she is has dropped everything to be by my side every day , I could never even begin to thank or repay her in my life time and thank the Lord everyday for a loving wife that not only loves the Lord but helps me in the work. Being the person she is many of you don't know she has been fighting her own medical condition and has been on crutches since December and was admitted last Tuesday to hospital ,she has a lesion on her hip which is effecting her ability to walk , Drs are now running tests to check why the bone is softening , she has not said much because she does not want the attention drawn a away from my injuries , she is so selfless , but she really needs your prayers too, we are concerned about the prognoses . we are together motivating each other.

Africa Work report

.I am proud to say that my sons have stepped in so quickly to help me and the brethren especially our middle son Damon he has made two trips to Botswana collecting the maize from the supplier and delivering to all the brethren there ,I have been "directing" as it were from my hospital bed .I arranged that Damon takes with him on each trip new teaching material to give the brethren there , among this he has also been helping with the sorting out of the well projects we are busy with . The current crops with the rain received are in and will be harvested Lord willing by the end of April early May in Botswana , I am using funds left in my kitty for this month end January , I will give the update on this when my son visits me tomorrow in hospital with the full update .The other sons have been on the farm and have also met with Zimbabwe preachers on the border , arranging the food needs and other issues that come up .Damon has more flexibility , so we are planning for him to make a trip into Zimbabwe just to check in on all our brethren there , also just help out with wells , he is a farm boy so quite resourceful .I have always prayed that one of my sons would follow in my footsteps , so maybe this will be the thing that turns out for the good , I really believe the Lord uses situations for the good. **Zimbabwe** is a strong work , my whole goal as an evangelist has been to train men to lead and continue in the work , I have 5 well trained preachers in the 12 congregations in Zimbabwe and covid 19 was a good test of strength , so I am in weekly contact with preachers and all is well with the brethren and the work there ,I have no immediate concerns, Lord willing Damon will get there in the not too long future. **Zimbabwe**, brethren have received their first rains , they all planted and they have received follow up rains last week ,our God is good , please pray for the rains to continue , plus the help with wells as back up . In the mean time you know me I cannot "sit" or lie still I having been sowing and teaching my fellow man next to me in the hospital and some of the staff they are a captive audience , I have managed to put 5 people in contact with Churches and brethren close to where they live , it looks like 2 may be baptized soon

Brethren thank you again for all your love ,messages and prayers,

My sons have offered to drive me into Zimbabwe and Botswana as soon as I am mobile and until my hand is completely healed , I ask for your patience and prayer in all this .In the mean time I will be in contact and helping our brethren where I can along with the help of my sons and all you good brethren .

Thankyou again for your love and support especially in these challenging times .

In Christ we obey and serve

Blessed is the one
who perseveres
under trial because,
having stood the test,
that person will
receive the crown of life
that the Lord has
promised to those
who love him.
